

Industrial innovation means higher productivity, profits and wages and less business lost to outsourcing. We help companies innovate to become more competitive nationally and internationally.

Each member of our team of more than 40 engineers and other professionals has industry experience. We work side-by-side with you to implement change through technology-driven solutions to increase your firm's competitive advantage. Approaches include:

- Quality and International Standards
- Energy Management
- Environmental Management
- Lean Enterprise Transformation
- Government Procurement Assistance
- Strategic Business Services
- New Product Design and Development

Industry Services is the home for Georgia Tech's network of region offices, and federally supported programs such as the Manufacturing Extension Partnership, the Southeast Trade Adjustment Assistance Center and Georgia Tech Procurement Assistance Center.

We have a wealth of expertise at our fingertips from Georgia Tech – one of the world's leading engineering, technology and research universities. Enterprise Innovation Institute's Industry Services offers:

- Single point of contact to access Georgia Tech resources
- Strong statewide network of regional offices
- Liaison with research institutes and centers, students and faculty

Want to achieve the greatest bottom-line savings in the shortest time possible?

Start with a FREE Competitiveness Review. Our team can help you pinpoint the high-priority actions you can take to improve your competitiveness with an on-site, comprehensive evaluation of your operations – measuring your current practices against the industry's best practices. Call us at **888-272-2104** to find out more.
